Introduction to the Policy

The school is aware and acknowledges that increasing numbers of adults and children are using social networking sites. The two with the widest (but not limited to) use are Facebook and Youtube.¹

The widespread availability and use of social networking application bring opportunities to understand, engage and communicate with audiences in new ways. It is important that we are able to use these technologies and services effectively and flexibly. However, it is also important to ensure that we balance this with our reputation.

This policy and associated guidance is to protect staff and advise school leadership on how to deal with potential inappropriate use of social networking sites. For example, our use of social networking applications has implications for our duty to safeguard children, young people and vulnerable adults. The policy requirements in this document aim to provide this balance to support innovation whilst providing a framework of good practice.

Purpose

The purpose of this policy is to ensure:

- That the school is not exposed to legal risks
- That the reputation of the school is not adversely affected
- That our users are able to clearly distinguish where information provided via social networking applications is legitimately representative of the school.

Scope

This policy is subject to the school's Codes of Conduct and Acceptable Use Agreements.

This policy:

- Applies to all staff and to all online communications which directly or indirectly, represent the school.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education.

The school respects privacy and understands that staff and pupils may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

All school representatives should bear in mind that information they share through social networking applications, even if they are on private spaces, are still subject to copyright, data protection and Freedom of Information legislation, the Safeguarding Vulnerable Groups Act 2006 and other legislation.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Use of Social networking sites in work time:

Use of social networking applications in work time for personal use only is not permitted, unless permission has been given by the Head teacher.

Social Networking as part of School Service

All proposals for using social networking applications as part of a school service (whether they are hosted by the school or by a third party) must be approved by the Head teacher first. Use of social networking applications which are not related to any school services (for example, contributing to a wiki provided by a professional association) does not need to be approved by the Head teacher.

However, school representatives must still operate in line with the requirements set out within the policy. School representatives must adhere to the following Terms of Use.

The Terms of Use below apply to all uses of social networking applications by all school representatives. This includes, but is not limited to, public facing applications such as open discussion forums and internally-facing uses such as project blogs regardless of whether they are hosted on school network or not. Where applications allow the posting of messages online, users must be mindful that the right to freedom of expression attaches only to lawful conduct.

Manor Park CofE VC First School expects that users of social networking applications will always exercise the right of freedom of expression with due consideration for the rights of others and strictly in accordance with these Terms of Use.

Terms of Use Social - If using networking applications to promote the school:

Child protection guidance

If the head teacher receives a disclosure that an adult employed by the school is using a social networking site in an inappropriate manner as detailed above they should:

- Record the disclosure in line with their child protection policy.
- The school must refer the matter to the Dorset LEA LADO who will investigate via the appropriate agencies.
- If the disclosure has come from a parent, take normal steps to calm the parent and explain processes.
- If disclosure comes from a member of staff, try to maintain confidentiality.
- The LADO will advise whether the member of staff should be suspended pending investigation after contact with the police. It is not recommended that action is taken until advice has been given.
- If disclosure is from a child, follow your normal process in your child protection policy until the police investigation has been carried out.

Cyber Bullying

By adopting the recommended no use of social networking sites on school premises, Manor Park CofE VC First School protects themselves from accusations of complicity in any cyber bullying through the provision of access.

Parents should be clearly aware of the school's policy of access to social networking sites.

Where a disclosure of bullying is made, schools now have the duty to investigate and protect, even where the bullying originates outside the school.
