

Stay and Investigate

SCIENCE AT MANOR PARK

Dear Parents and Carers,

We would like to invite you to our first [Science, Stay and Investigate Session](#) at Manor Park CE First School on the morning of **Wednesday 10th October, 2018**. The aim of the session is to provide creative examples and ideas of ways that you can help your child to develop their scientific investigation skills. Science remains a core subject in the National Curriculum, alongside our teaching of English and Mathematics, and you can help to inspire your child's curious mind with fun and interesting activities at home.

The Science Curriculum and Learning Team will be presenting a short introduction at 9.00am in the school hall, followed by an opportunity for you to join your child's class at 9.15 - 9.45am to join in the fun!

We do hope you can join us on this morning.

Mrs Walker, Mrs Sanderson, Miss Thebault and Miss Birch
